- Fast learner
- Attention to detail
- Problem-solving

Bc. Stanislav Poklemba

Bachelor's graduate and final-year Master's student at the Technical University of Košice – Faculty of Electrical Engineering and Informatics (FEI), seeking opportunities in the IT industry. I have practical experience in developing web applications in React, including building responsive user interfaces, working with forms, implementing authentication, and integrating REST/WebSocket APIs. I also have experience working in Agile/Scrum sprints using Trello. I am looking for a junior IT position, preferably in Košice or remotely; availability upon agreement.
